What wireless router should I pair with fiber optic cable

Overview

Here are our top picks for the best Wi-Fi routers to get the most out of your fiber connection. Wi-Fi 6 or 7 is essential for maximizing fiber internet speeds—especially on plans 1 Gbps and higher. A fiber-optic connection is the best choice for fast home internet as it has a number of advantages compared to traditional copper cables, such as faster speeds and less interference. To simplify this selection procedure, here are 3 key factors to be considered:

Data Transfer Rate - It is the maximum speed your router can handle.
