Where is the China-Pakistan cross-border optical cable located

Overview

The Pakistan-China Fiber Optic Project is an 820 kilometer long optical fiber cable connecting Pakistan and China; it was laid down between the Khunjerab Pass on the China-Pakistan border and the Pakistani city of Rawalpindi. According to ProPakistani and China Xinhua News, the Pak-China Optical Fiber Cable (Pak-China OFC), which connects Pakistan with China through Khunjerab, was put into service on Friday, July 13, 2018.

Where is the China-Pakistan cross-border optical cable located

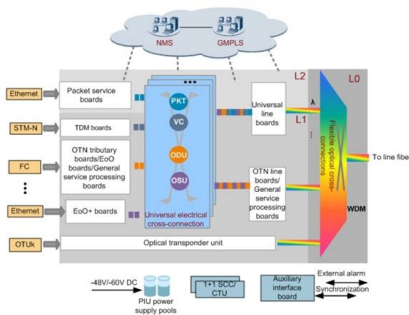

Breakthrough for "the Belt and Road Initiative" project, China Telecom

Yao Jing, Chinese ambassador to Pakistan, said that the " Pak-China Optical Fibre Cable " is the first cross-border cable which connects China and Pakistan directly.

China Telecom Completes First China-Pakistan Optical Fiber Link

"Pak-China Optical Fiber Cable" starts from Urumqi, China, and across the Khunjerab port nearby China-Pakistan border to the city of Rawalpindi, Pakistan, with a total length of 2,950 kilometers.
